

**Dear colleagues,**  
we like to cordially invite you to the International Symposium High Performance Proteomics to be held at the BioMedizinZentrum Dortmund, Germany in May 2007. The occasion for this exciting symposium is the opening of the

**Zentrum für Angewandte Proteomik**

within the

**BioMedizinZentrum Dortmund**

and the anniversary celebration of

**6 Years German Human Brain  
Proteome Project**

as the Systematic-Methodological Platform within the National Genome Network of the German Ministry for Education and research.

The symposium will offer the outstanding opportunity to obtain a broad overview about all fields of Proteomics and related fields, combining the expertise of Biochemists, Physicians, Bioinformatics, Mathematicians and other researchers in Life Sciences. The main topics will be the presentation of state-of-the-art technologies, study strategies and standardisation, completed by an interactive panel discussion.

We are looking forward to welcome you in Dortmund where industry culture meets innovation!
